## BIOGRAPHY

### Fresh Faces, Infectious Energy: The Rise of GenXtra

Bursting onto the scene in Dutchess County NY, GenXtra is a breath of fresh air in the cover band world! We're a group of five passionate musicians united by a love for rock music and a desire to bring its energy to a new generation fueled by the combined power of a female vocalist and a gritty male lead. Though new to the scene, each member brings a unique skillset and infectious enthusiasm, honed through individual musical journeys and a shared hunger to perform.

Our story began in 2023 when our paths crossed at a jam session. A shared spark ignited, powered by our desire to create a band that didn't just play the classics, but reimaged them for a modern audience. We meticulously craft setlists that weave together timeless hits with unexpected twists, ensuring a fresh and engaging experience for listeners of all ages. From the genre-defining sounds of the 70s, 80s, and 90s GenXtra is your go-to party band, faithfully recreating the classic rock, alternative and pop anthems with a modern twist.
